

Green Your Residence WEEKLY REPORT 6

Date: 3/7/16

Group number: DEC1612

Project title: Green Your Residence

Client &/Advisor: Merry Rankin and Professor Samik Basu

Team Members/Role: Brianna Gerads/Team Leader/Key Concept Holder, Guan Keng Lim/Team Communication Leader, Daniel Cain/Team Webmaster

(All the above information should be there in each weekly report)

→ **Weekly Summary (Short summary about what you did this week)**

- ◆ Worked separately on our respective modules.
- ◆ Met with Professor Basu to discuss standards

→ **Past week accomplishments (please describe as what was done, by whom, when)**

- ◆ Guan Keng Lim - Continued working on the mouse hover-popup function with Fancybox(Javascript plugin) and HTML + CSS
- ◆ Daniel Cain - Finished the dynamically-filtered list system with AngularJS, worked on the Design Document.
- ◆ Bri Gerads - Continued working on the drag and drop html + JavaScript + KineticJS (found out KineticJS is no longer maintained) and created a prototype of the quiz interface using php and began working on the popup screen the quiz will come up on.

→ **Pending issues (if applicable)**

◆ Not applicable this week.

→ **Individual contributions**

<u>NAME</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
Brianna Gerads	Continued implementing with html, javascript and kinecticJS the drag and drop zone, created a basic prototype of the quiz, and began to implement the popup screen the quiz pops up on, wrote up my standards	4	17.5
Daniel Cain	Started work on the dynamic item lists, implemented AngularJS into project.	3.25	13.5
Guan Keng Lim	Continued working on the mouse hover-popup function with Fancybox(Javascript plugin) and HTML + CSS	3	14

→ **Comments and extended discussion**

→ **Plan for coming week (please describe as what, who, when)**

- ◆ Bri: Finish my development of html drag and drop zones for DOM objects prototype by end of spring break. Better the interactive quizzes framework. Test the popup screen and have working by spring break.
- ◆ Guan: Finish hover-popup function (Change image on the popup screen) and present to client
- ◆ Daniel: Start working on another module for the project, start assembling a prototype build for the client meeting later in the week.

→ **Summary of weekly advisor meeting (if applicable/optional)**

We met and discussed our project standards and upcoming plans and current progress.
